

Environmental Policy (ISO 14001)

Compliance

We will comply with all applicable environmental laws and regulations and will implement programs and procedures to ensure compliance.

Prevention

We will employ management systems and procedures designed to prevent pollution or other negative impacts to the environment from our processes, facilities, and products. We will strive to prevent releases to the atmosphere, land, or water and will minimize the amount and toxicity of waste that we generate. We will prepare for and respond to emergencies if they arise.

Communication

We will communicate our commitment to environmental protection to our employees, customers, and community. We will solicit employee input and participation in meeting our environmental goals.

Continuous Improvement

We will continuously seek opportunities to improve the effectiveness of our environmental management and our adherence to this policy and principles.
